

MANITOBA INSTITUTE
FOR PATIENT SAFETY

Leading Practices Webinar Series

May 26, 2021
6:00 – 7:00 P.M. (CDT)

Join us for:

Is it safe to ask YOU?

**Making communication with
patients safer & more effective**

At the conclusion of the webinar,
participants will be able to:

- Recognize potential barriers to communication, by both physician & patients
- Refine communication skills to better manage everyday patient care situations, through the use of best practice tools and strategies
- Identifying opportunities to improve patient health outcomes and add efficiency to each appointment

SPEAKERS

Dr. Terry Wuerz

Terence (Terry) Wuerz is an assistant professor in Adult Infectious Diseases and Internal Medicine at the University of Manitoba. Dr. Wuerz has an interest in improving the quality of medical care through wiser antimicrobial use and more effective communication

between health care providers

He is on the board of directors for the Manitoba Institute for Patient Safety and also leads a multi-disciplinary working group hoping to create an integrated clinical antimicrobial stewardship program within acute care hospitals in Winnipeg.

Dr. Ainslie Mihalchuk

Dr. Ainslie Mihalchuk is the Assistant Registrar - Quality for the College of Physicians and Surgeons of Manitoba. She is a passionate advocate for patient safety and supporting continuous quality improvement within the medical profession. Dr. Mihalchuk is a family physician providing patient care in community, hospital and long term care settings.
